

AMARO MONTE SAN COSTANZO

PRODUCTION INFO

The artisanal factory of the Nastro d'Oro distilleries is situated on the slopes of Monte San Costanzo, a hill topped with a white chapel overlooking the entire coast.

San Costanzo is the patron saint and protector of the small village of Termini, so named because it is the last outpost of the Sorrento Peninsula overlooking the sea.

The chapel of San Costanzo is accessible only on foot via a trail that begins at the factory. Along this trail, we find the herbs used for infusions and the preparation of this liqueur: mint, fennel, rocket, and anise.
