

BASMOON VODKA

THE PRODUCT

Basmoon Vodka is handcrafted in Basque Moonshiners distillery with traditional methods.

It's a five-times distilled premium vodka that since October 2015 carries two medals.

The gold one is for the Best Vodka Premium and the silver one is for The Best Microdistillery.

TASTING NOTE

It combines a smooth, sweet and balanced taste with citric touches as well as cocoa and liquorice.

AGRIA POTATO

Due to the War of Independence (1814) and the Carlist Wars (1833, 1846 and 1872) it was a bloody nineteenth century.

With a famine empowered population, the potato then became an essential nutrient for both the diet and the economy of the territory.

The potato was immune to local hard weather like rain, snow, frost...and today it has become a symbol of quality internationally.

Basmoon Vodka is made with Agria variety, a sowing local potato.

Rich in starch, allows to obtain high alcohol efficiency.
